

Banana Chips Cutting Machine

Specification	Details
Purpose	Designed to cut bananas into uniform slices for banana chips production
Cutting Capacity	High-capacity for commercial use, suitable for continuous operation
Construction Material	Made from durable stainless steel for hygiene and long-lasting use
Blade Type	Sharp, corrosion-resistant blades for consistent cutting
Motor Power	Powerful motor for fast and efficient slicing
Ease of Operation	Simple controls for easy use in commercial kitchens or factories
Safety Features	Protective cover and safety switches for risk-free operation
Cleaning & Maintenance	Easy-to-clean design for hygiene and quick maintenance
