

# Batter Table

Specification	Details
Surface Type	Flat, smooth surface ideal for batter preparation
Construction Material	Durable stainless steel or food-grade plastic for hygiene and longevity
Design	Compact and space-efficient, suitable for commercial kitchens
Ease of Cleaning	Easy-to-clean surfaces for hygienic maintenance
Durability	Built to withstand constant use in busy kitchen environments
Application	Ideal for preparing dosa, idli, vada, and other batter-based dishes
Space Efficiency	Organizes kitchen space and maximizes workspace
Functionality	Dedicated area for efficient batter mixing and handling
