

# Commercial Idly Steamer

Specification	Details
Capacity	High-capacity steamer suitable for steaming large batches of idlies
Construction Material	Sturdy stainless steel body – rust-resistant and hygienic
Steaming Trays	Multiple layers of trays to steam many idlies simultaneously
Heating System	Efficient steam generation for uniform cooking of idlies
Time Efficiency	Rapid steaming process ideal for commercial operations
User-Friendly Design	Easy to operate with simple controls for consistent results
Durability	Built to withstand continuous use in busy kitchens
Energy Efficiency	Optimized energy use for large-scale steaming
