

Dough Kneader

Specification	Details
Motor Type	Heavy-duty motor for efficient handling of large dough batches
Body Material	Durable stainless steel – rust-resistant and easy to clean
Speed Settings	Multiple speed settings to adjust for different types of dough
Design	Ergonomic design for easy operation and maintenance
Time Efficiency	Automates dough kneading, significantly faster than manual methods
Consistency	Ensures uniform dough texture and quality every time
Durability	Built for long-lasting performance in busy commercial kitchens
Cleaning & Maintenance	Simple to clean and maintain for daily use
